Hack BI VII   [Rust]

Get Started : (What software is required for participants of the workshop)
rustup – cargo, rustc

Uses: (How is the topic of your workshop used)
web servers, embedded, parallel programming, wasm, reliable code

Purpose: (Why would someone want to attend your workshop)
to learn how to write fast, reliable, and memory-safe software using the rust programming language

Goal: (What are you teaching and what do you want attendees to know after your workshop)
how to use the cargo build tool and write idiomatic rust programs

Topics: (What are the main topics you will cover in your workshop)
simple cargo commands, basic rust syntax, the borrow checker, functions, structs, mutability

Resources Used: (Resources that are helpful in learning about your workshop topic)
